

## Vision Statement

Charing Church of England Primary School is a school where every child feels valued, safe and encouraged in a Christian environment. It is a school where every child is an individual, treated with respect and kindness and supportive partnerships with families are built. Charing children are encouraged and supported to become aspirational learners with the knowledge and skills to become responsible, adaptive citizens in our ever-changing world. **Through faith and inspired learning, we unlock every child's ability to achieve beyond his or her expectations** in a vibrant learning environment.

Our Christian ethos underpins the everyday life of the school and our Christian values (love, friendship, kindness, hope and truth) and British values (mutual respect and tolerance, rule of law, democracy, and individual liberty) are the moral and spiritual foundation through which our children grow, develop and learn.

Charing Church of England Primary School is a school which is at the heart of, and serves, the community of Charing.
